Subject: conclusions still did not trill me so I worked some more on it.

I think that this could be sent to ICF, but Im sending it to you in the event you want to look at the conclusions one more time. ICF should work to shorten it a bit via tight editing. The abstract is most problematic. JV I going to read the conclusions and Annie is going to look at the research need before Monday, so tell ICF not to work on those sections.

If ICF cannot get it down to 10,000 words we can drop some references. Thanks for your help.
